

# Why Owens Corning

Since 1977, Owens Corning has been a leading manufacturer of shingles and accessories for the residential roofing market. Though best known for our [PINK® Fiberglas insulation](#), Owens Corning is also a leader in the roofing market.

In fact, according to a [Hanley-Wood Publishing survey](#) of 3,400 U.S. builders, Owens Corning Roofing products were voted "the most recognizable brand in the market." Since Owens Corning invented glass fiber during the 1970s, it has become the material standard for shingles, and is used by most shingle manufacturers. The fiberglass composition of roof shingles plays an important role in protecting homes from moisture and other weather-related elements.

We take great pride in our roofing shingles and accessories and we believe that we have a great deal of responsibility to homeowners. That's why we make sure every Owens Corning shingle meets your high expectations.

Every shingle we make combines consistent quality with long-lasting beauty and maximum protection. Performance is at the heart of every Owens Corning roofing product.

Every Owens Corning shingle line features:

- Fiberglas® mat that adds weather protection, greater fire resistance and longer life.
- Weathering-grade asphalt that holds the granules on the shingle and protects the roof from water.
- Colorful mineral granules that help reflect the sun's rays while adding beauty and style to the roof.
- Heat-activated adhesive strip that bonds shingles into a single, watertight unit.
- Class A Fire Rating, the highest available for residential applications.
- Wind Resistance Rating for winds and gusts up to 110 mph depending on the shingle style selected.
- Limited product warranties ranging from 20 to 50 years, depending on shingle style.

## Owen Corning Oakridge shingles

Owen Corning Oakridge® shingles have a warm, inviting look in popular colors for a step up from traditional three-tab shingles. And now Owens Corning Roofing has expanded the Oakridge color palette with a collection of [new Artisan Colors](#) that provide a unique blend of artistry and craftsmanship that will give your home a look that is anything but ordinary and are backed with a Limited Lifetime Warranty\*/† (for as long as you own your home).
